

## Welcome to What's Next in Networking

Attend any ACG chapter event and you'll quickly see what attracts members: **networking**. ACG members network over breakfast, lunch and dinner, on golf courses and ski slopes, in hotel ballrooms and office conference rooms. Purposeful and business-focused, ACG members discover opportunities and connections at more than 500 chapter events every year. Networking is the reason ACG grew 11% in the past year, to nearly 13,000 members.

This vibrant and valuable activity is now enhanced by the power and reach of ACG's digital networking platform, featuring state-of-the-art communication and connection tools. Welcome to what's next in networking.

ACG members now have digital tools similar to those found on such popular sites as [LinkedIn](#), [FaceBook](#), [Flickr](#) and [YouTube](#). This empowers ACG members to search for business opportunities, connect with colleagues, engage in conversations, access critical data, share photos and videos, register for ACG events and establish a unique online presence - all within the ACG community. ACG digital networking accelerates and leverages the benefits of ACG membership on a global, 24/7 basis.

Face-to-face networking has been essential to ACG members for the past 54 years. The new ACG digital platform provides powerful 21<sup>st</sup> century tools. Together, these face-to-face and online networking endow ACG members with exclusive advantages that are essential to doing business in today's environment.

While you are online today, please take the time to update your profile so that all ACG members have the most comprehensive and valuable information about you and your company. Please [Click Here](#) if you do not know your user name and password.

Sincerely,

Gary A. LaBranche, CAE  
President & CEO
